

High P 10-52-10

Guaranteed Content (w/w):

Total N:	10%
P ₂ O ₅ :	52%
K ₂ O (Solution):	10%
Chelated Fe:	50 ppm
Chelated Mn:	50 ppm
Chelated Zn:	50 ppm
Chelated Cu:	50 ppm
Boron solution:	50 ppm
Free Amino Acid:	1%
B Complex Vitamin:	100 ppm
Organic Matter:	2.5%

 **Physical Appearance:**
Powder/ P

Suitable for:

-  **Fruits**
-  **Field Crops**
-  **Vegetables**
-  **Greenhouses**

Registration No: 16384

Producer: Bazargankala Co.

Containing Nitrogen, Potassium and High Percentage of Phosphorus | With Micro Elements Chelated with EDTA and B-complex Vitamins.

Introduction:

“Nutritech Powder 10-52-10” is a water soluble powder fertilizer which provides Macro nutrient elements in the initial stages of growth, before flowering and also during productive stages.

Technical Information:

Content						
Nutritech 10-52-10	Total Nitrogen	Phosphorus	Potassium	B-Complex Vitamins	Organic Matter	Free Amino
	10 %	52 %	10 %	100ppm	2.5 %	1 %
	Chelated Fe	Chelated Mn	Chelated Cu	Chelated Zn	Boron Solution	
	50 ppm	50 ppm	50 ppm	50 ppm	50 ppm	

This fertilizer, consists of balanced ratio of nitrogen & potassium with chelated micro elements, amino acids and organic matter for better absorption, which cause better efficiency. The low amount of chlorine and sodium in this fertilizer makes it suitable for use in saline soils, sensitive plants to salinity and foliar application.

Application Guide: Foliar Application / Fertigation

Crops	Time of Application	Fertigation	Foliar Application
Fruit Trees	Since Early growth stage	10-20 Kg/ha	2-4 Kg /1000 L of water
Vegetables		10-15 Kg/ ha	2-4 Kg /1000 L of water
Field Crops		8-12 Kg/ ha	1-3 Kg /1000 L of water
Greenhouses		2-4 Kg/ 1000 m ²	1-3 Kg /1000 L of water

*Repeat as needed

High P 10-52-10

Features & Advantages:

- Suitable for fertigation and foliar application.
- Good solubility in hard water
- High percentage of absorbable phosphorus.
- Significant amounts of nitrogen and potassium.
- Micronutrients in chelated form and available.
- Stimulating root formation and root development.
- Increasing flowering, fruitsetting and reducing flower drop.

Cautions & Disclaimers:

- Do not mix with alkaline calcium compounds.
- The dosage and recommendations above are general. In order to be exact and most effective, soil and tissue analysis should be considered and also consultation of local experienced agronomists is highly recommended.
- To avoid any misuses, jar test and small- scale testing is recommended before main application.
- The liability of the producer is limited to the guaranteed content and physical characteristics as claimed; the producer shall not be liable for anything out of its control.
- This product is **NOT** miscible with alkaline solutions, sulfur products and pesticides and shall not be mixed with the mentioned products.
- The product shall be kept in 5-30 degrees centigrade and also **NOT** under the direct sunlight and away from flammable materials.
- Foliar application shall be applied in the coolest time of the day during the day time (early morning or near sunset).
- The product should be applied as foliar mixture, so undiluted use of it is prohibited.
- Use acceptable quality of water for foliar application
